Contact Number: 9963761162

Email: shivavelishoju0827@gmail.com

LinkedIn :<https://www.linkedin.com/in/shiva-velishoju-6650982b1/>

Present Address: Shayampet(H), Warangal, Telangana, 506330.

CAREER OBJECTIVE

To begin my career as a Power Electronics Hardware Engineer where I can apply my knowledge of circuit design, embedded systems, and power electronics concepts to develop efficient and reliable hardware solutions, while continuously enhancing my skills in simulation, design, and system integration.

ACADEMICS

Bachelors of Technology ECE	2019-2023
Vaagdevi College of Engineering, Bollikunta, Warangal.	7.85%
Board of Intermediate Education MPC	2017-2019
SR Junior College, Hunter Road, Warangal.	85%
Board of Secondary Education SSC	2017
Telangana State Model School, Vanchanagiri, Warangal.	92%

TECHNICAL SKILLS

Power Electronics

- Basics of Converters, Inverters, Motor Control
- Power Supply Design Fundamentals

Circuit Design

- Analog & Digital Circuit Design
- PCB Design (Basic Knowledge)

Tools & Simulation

- MATLAB / Simulink (Basic Knowledge)
- Arduino IDE

Embedded Systems

- Arduino, Sensors, Actuators
- Embedded C

Testing & Debugging

- Hardware Testing & Troubleshooting
- Signal Analysis & Debugging
- Experience in hardware bring-up, debugging, and system integration through academic and personal projects

ACADEMIC PROJECTS

Bionic Hand – Arduino & EMG Control

Technology: Arduino IDE, EMG Sensors

Role: Team Leader | Duration: 2023

- Developed a Bionic Hand prototype that uses EMG sensors to capture muscle signals and drive servo motors for gesture-based artificial limb control. Focused on enhancing user independence and rehabilitation support for individuals with upper limb disabilities.

Master-Slave Robotic Arm – Motion Control with Record & Play

Technology: Arduino, Servo Motors, Potentiometers, Embedded C

Role: Team Leader | Duration: 2022

- Built a robotic arm system where a master arm's movements controlled a slave arm in real time using potentiometers and servo motors. Implemented a Record & Play mode to store and replay motion sequences, demonstrating applications in teleoperation, robotics, and automation.

Zone-Based Advanced Driver Assistance System (ADAS) – Road Safety Project Presentation

- Presented a zone-based ADAS project focusing on road safety. Implemented GPS-based detection for vehicle entry in critical zones (schools, hospitals) and automatic speed limiting for safety. Included continuous monitoring with real-time speed control via ECU, showcasing how technology can help prevent accidents in high-risk areas.

PERSONAL PROJECTS

Velino IDE – Custom Integrated Development Environment Testing & Validation

Role: Developer & Tester

- Performed **functional testing** on IDE features like code editor, compile, and upload
- Conducted **smoke & sanity testing** after feature updates
- Identified and fixed bugs related to UI and hardware communication
- Tested serial communication and real-time data handling
- Ensured cross-platform compatibility

Velino Board – Custom Embedded Development Board

Technology: PCB Design (EasyEDA), Embedded Systems

Role: Designer & Developer | Duration: 2021 – Present

- Designed and developed a custom PCB-based embedded development board using EasyEDA
- Implemented circuit design including power regulation, reverse polarity protection, and I/O interfacing
- Integrated peripherals such as relays, sensors, Bluetooth, IR, and I2C LCD modules
- Performed hardware bring-up, debugging, and validation of board functionality
- Ensured reliable power distribution and basic power management across components
- Enabled seamless integration with custom Velino IDE for programming and control
- Used for prototyping IoT and embedded system applications

CERTIFICATES AND INTERNSHIPS

- Certificate of short term Training And Internship On Advanced Embedded Systems Design using Texas instrumentation Development Tools.(2022)
- Certificate of Short-Term Training and Virtual Internship Program in Front-End Development at CODEXINTERN, conducted from 1st August to 10th October, 2025.
- Workshop on IoT with Arduino – SWECHA (2021)
- Internal Hackathon Participant – Smart India Hackathon (ADAS) – Road Safety Project Presentation (2020)
- SQL and Relational Databases – IBM (2024)
- Techno Craft Coordinator – National Level College Event (2022)

STRENGTHS

- Good communication skills | Quick learner | Ability to work independently.

HOBBIES

- Gardening | Drawing | Dry Inventions & Prototyping | Travelling.

PERSONAL INFORMATION

- Father's Name: V. Kanaka Chary
- Mother's Name: V. Rajamani
- Date of Birth: 08/01/2002
- Nationality: Indian
- Gender: Male
- Languages Known: English, Hindi, Telugu

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and belief.
